## From the principal

It has been a wonderful start for all our students in 2024 and they are to be congratulated on the mature, settled and engaged approach they have taken to their learning. As a school, we maintain a steadfast focus on our core business of teaching and learning, particularly around literacy and numeracy skills. As parents we appreciate that your kids are often reluctant to give much insight into their day at school (other than "it was ok"), but if you scratch a bit deeper and ask "what was something you learned today?" (and persist when you receive the inevitable answer of "nothing") then I am confident the kids will have some wonderful anecdotes to share.

Our Year 12 students on the HSC journey have been provided a new initiative of support in 2024, with each student able to choose a member of staff to be their *HSC Mentor*. This relationship provides individual support to students from their experienced teachers, many of whom have been there for countless HSC's over the years. The initiative has been implemented by **Ms Wall**, HSIE teacher and Year 10 Year Adviser, who has allocated mentors and provided some guidelines to shape conversations. We hosted a "Meet your Mentor" Morning Tea last week and I know mentoring sessions have commenced. Parents of Year 12 are encouraged to ask your son or daughter who their mentor is, and if they did not complete the Google Form to be allocated one, please encourage them to reach out to Ms Wall as it is never too late!

Tuesday the 13th of February was our annual Swimming Carnival which was held on the most stunning Summer's day, complete with mid-afternoon storm! The Carnival was an absolute success, with the vision of **Mr Neal** to create an inclusive day for all students an absolute masterstroke. The Sports Committee and teaching staff did a fabulous job of bringing this vision to life and the students in attendance were very well behaved and left with big smiles on their faces. Unfortunately, a number of students decided this was an optional day of attendance and they missed out on strengthening their connections with their peers and the school. I look forward to even more students enjoying the day in 2025!

On the topic of attendance, this is a significant focus area across NSW Education and here at Dapto High School. Attending school all day every day improves learning outcomes, as well as social and emotional health. Some statistics to note:

- just 1 day missed per fortnight (90% attendance rate) adds up to 5 full terms missed over their schooling life
- 30 minutes missed each day adds up to 18 days per year

In the first 15 school days of 2024 all of our students combined have:

- 1,790 whole days absent
- 150,918 minutes of partial absences, the equivalent of another 420 days

We understand that students get sick, have appointments and other justified absences, but we want to work together to ensure every student attends every minute they are able.
